PERSONAL PROJECTS

Frontend for Hospital Slot Booking Website (06/2022 - 12/2022)

- I designed a patient-centered front-end interface, simplifying the process of booking medical appointments to enhance the patient experience.
- Through the optimization of the booking process, I placed a priority on improving the patient experience and increasing the convenience of healthcare accessibility.
- My project enhanced the efficiency of appointment scheduling for patients, nurturing a user-friendly healthcare system.

Personal Website (04/2023 - Present)

- Designed a portfolio website showcasing my skills and past projects, demonstrating creativity and technical abilities to potential employers.
- Effectively conveyed my qualifications and achievements through this platform, leaving a strong impression.
- A digital portfolio highlighting my expertise, serving as a compelling testament to my capabilities and accomplishments.

To-do List Website (06/2023 - 07/2023)

- Developed a task-focused website, optimizing task management for productivity while demonstrating technical proficiency.
- This project embodies my skill set, simplifying task handling and promoting efficiency.
- An efficient to-do list platform that showcases technical expertise, streamlining daily task management.
